ANNEX B

Dear Resident/Occupier,

As you are aware the Sittingbourne Residents Parking Scheme was put into operation last year.

Now the scheme has had time to settle, we have decided to review the scheme through a consultation with the residents within the scheme area and on the outskirts.

We believe the scheme has generally improved the parking availability for residents within the scheme area and the safety of road users through improved visibility at junctions.

However, we would like your comments regarding the current scheme and if improvements can be made. Your suggestions will be considered and any proposed amendments to the traffic regulation order will be the subject to further consultations before being implemented.

Please submit your comments by post or e-mail before **Monday 9th April 2007**

E-mail: transportation@swale.gov.uk

Please write your answers/comments/suggestions opposite, detach the side and post back to us. No stamp is required.

Residents Parking Scheme, Sittingbourne

Would you say the scheme works? Yes / No
