

Hope Way, Sheerness - Proposed Taxi Rank

Name	Address	Support	Object	Notes
				Taxi Rank includes road o/s rear access to property, this area is in regular use and we require unimpeded access at all times. Please ensure sufficient space is left for lorries to park alongside rear entrance and that taxis will not be permitted to encroach this space

High Street, Sheerness - Proposed Taxi Rank

Name	Address	Support	Object	Notes
			1	Encourages extra traffic through town, at narrow fairly congested point. No objection to rank but Rose Street or The Broadway would be better.
			1	Within 400 metres (a guess) already exists Taxi Office with ample waiting facilities and sufficient pick up area. They do not need to drive through the High Street. Taxi rank already at Sheerness station, so no advantage to this Taxi company, disadvantages would be to residents above rank and the public from noise and pollution. This proposal makes neither economic or environmental sense. I and the immediate residents and business are very strongly opposed to the proposal.
			1	Would be detrimental to the surrounding businesses
			1	Loss of customer parking. Pollution and noise nuisance. Traffic calming measures were intended with taxi being able to unload in road
			1	Lived above proposed rank for 20 years , experienced many disturbances at late hours involving taxi pickup/drop off. Noise pollution is already proven.
			1	Have enough problems sleeping with rowdy youngsters. Do not need cars parked o/s property. I can't park my car there. Vals Cars already have office along the road and use Station.
			1	Will affect trade as parking spaces will be taken. Older customers use existing area for parking.
			1	This proposal would take up space from shoppers using cars. The Taxi rank at the Railway station is adequate
		1		It would encourage people to shop this end of town

Central Avenue, Sittingbourne - Proposed Extension to Taxi Rank

Name	Address	Support	Object	Notes
		1	1	For the past 12years I have never seen a taxi wait there, except for 8.8.06 the day this card arrived, when 6 cars spent a total of 41 minutes there between 8.55am - 13.45pm. Please note that the 5 spaces for public parking are used by public going to the Post Office and Bank where the time taken is less than the min. 1hour in the pay and display.
