ANNEX C

Dear Resident/Occupier,

As you are aware the Sittingbourne Residents Parking Scheme was put into operation last year.

Now the scheme has had time to settle, we have decided to review the scheme through a consultation with the residents within the scheme area and on the outskirts.

We believe the scheme has generally improved the parking availability for residents within the scheme area and the safety of road users through improved visibility at junctions.

However, we would like your comments regarding the current scheme and if improvements can be made. Your suggestions will be considered and any proposed amendments to the traffic regulation order or extension of the residents parking scheme will be the subject to further consultations before being implemented.

Please submit your comments by post or e-mail before **Monday 9th April 2007**

E-mail: transportation@swale.gov.uk

Please write your answers/comments/suggestions opposite, detach the side and post back to us. No stamp is required.

Residents Parking Scheme, Sittingbourne (outskirts)

What is the name of your road? .....

We will need to know how many vehicles you have in your household so that we can gauge the level of demand in you road. **How many vehicles do you have in your household? 1 2 3 4+**

Would you consider that there are parking problems in you road? Yes / No

Is it always reasonably easy to park near to your house or do you have to park some distance away? Yes / No

Would you like your road to be part of the scheme? Yes / No
