

Proposed Extension to Double Yellow Lines - Bull Lane, Boughton-under-Blean

Responder	Support	Object	Comments
1		1	1) No one parks there. 2) Drivers driving sensibly can see parked cars. 3) Yellow lines are unsightly. 4) A waste of money to do the work.
2	1		This is a dangerous corner when a vehicle is parked unsighted from the street, which is quite often used by people working in houses in the street.
3		1	
4	1		Support based on A) the current Highway code. B) The many near accidents I have observed particularly when the bus to Whitstable turns into Bull Lane from The Street.
5	1		This is an extremely dangerous corner and the presence of a parked vehicle on the west side of Bull Lane greatly adds to the danger
6	1		The hazard is for vehicles in both directions - those entering Bull Lane are forced, unexpectedly into the path of oncoming traffic. Exceptionally hazardous for the Whitstable bus - school traffic and agricultural traffic incl. HGV.
7	1		Total support for proposal.
8	1		Dangerous bend needs parking restriction for safety reasons
9		1	All that's happening is we are losing parking spaces and picking up more and more fines
