Project No	16900570	Leysdown Road, Eastchurch - Request to extend the existing speed limit	Carry out speed data survey. Implement TRO and required physical measures to reduce speed limit.	Speed data survey required 5-6 mph speed reduction to achieve 30mph limit. This cannot be achieved through signing alone with the current road layout. Speed attenuation measures, e.g. refuge islands, are needed to achieve 30mph mean speeds and member does not have enough this FY to install such measures. It has been agreed for an appropriate scheme to be designed this year for early implementation in 13/14, assuming members re-election or his successors agreement.
