# Planning and Transportation Policy Working Group Meeting

Date: Thursday, 14 March 2024

Time 7.00 pm

Venue: Council Chamber, Swale House, East Street, Sittingbourne, ME10 3HT\*

### Membership:

Councillors Monique Bonney (Vice-Chair), Kieran Golding, Alastair Gould (Chair), Mike Henderson, James Hunt, Elliott Jayes, Richard Palmer, Julien Speed, Karen Watson, Mike Whiting and Tony Winckless.

Quorum = 3

Pages

### Information about this meeting

\*Members of the press and public can listen to this meeting live. Details of how to join the meeting will be added to the website by 13 March 2024.

### **Recording and Privacy Notice**

Swale Borough Council is committed to protecting the security of your personal information. As data controller we process data in accordance with the Data Protection Act 2018 and the UK General Data Protection Regulation.

This meeting may be recorded. The recording will be retained in accordance with the Council's data retention policy and may be published on the Council's website. By entering the chamber and by speaking at a meeting, whether in person or online, you are consenting to being recorded and to the recording being published.

When joining a meeting online, your username will be visible to others in attendance. In joining the meeting you are consenting to us processing your username. You may use a pseudonym as your username but the use of an inappropriate name may lead to removal from the meeting.

If you have any questions about how we look after your personal information or your rights under the legislation, please email dataprotectionofficer@swale.gov.uk.

### 1. Emergency Evacuation Procedure

Visitors and members of the public who are unfamiliar with the building and procedures are advised that:

(a) The fire alarm is a continuous loud ringing. In the event that a fire

- drill is planned during the meeting, the Chair will advise of this.
- (b) Exit routes from the chamber are located on each side of the room, one directly to a fire escape, the other to the stairs opposite the lifts.
- (c) In the event of the alarm sounding, leave the building via the nearest safe exit and gather at the assembly point on the far side of the car park. Do not leave the assembly point or re-enter the building until advised to do so. Do not use the lifts.
- (d) Anyone unable to use the stairs should make themselves known during this agenda item.

### 2. Apologies for Absence

### 3. Minutes

To approve the Minutes of the Meeting held on 25 January 2024 (Minute Nos. 574 – 578) as a correct record.

### 4. Declarations of Interest

Councillors should not act or take decisions in order to gain financial or other material benefits for themselves, their families or friends.

The Chair will ask Members if they have any disclosable pecuniary interests (DPIs) or disclosable non-pecuniary interests (DNPIs) to declare in respect of items on the agenda. Members with a DPI in an item must leave the room for that item and may not participate in the debate or vote.

Aside from disclosable interests, where a fair-minded and informed observer would think there was a real possibility that a Member might be biased or predetermined on an item, the Member should declare this and leave the room while that item is considered.

Members who are in any doubt about interests, bias or predetermination should contact the monitoring officer for advice prior to the meeting.

5. Local Plan Review consultation timetable options

### Issued on Wednesday, 6 March 2024

The reports included in Part I of this agenda can be made available in alternative formats. For further information about this service, or to arrange for special facilities to be provided at the meeting, please contact <a href="mailto:democraticservices@swale.gov.uk">democraticservices@swale.gov.uk</a>. To find out more about the work of the this meeting please visit www.swale.gov.uk

| Classification          | Open  |  |  |  |  |  |
| Recommendations         | 1. Members of PTPWG are asked to recommend to Policy and Resource committee the Local Plan Review consultation approach option 2 that includes a Regulation 18 draft Plan consultation in quarter 4 of this year and a Regulation 19 pre submission Plan consultation in quarter 1 of 2025. |  |  |  |  |  |
|                         | 2. Members of PTPWG are asked to recommend to Policy and Resources committee that the updated Local Development Scheme at Appendix A be agreed and recommended for publication on the Council's website.  |  |  |  |  |  |

### 1 Introduction

- 1.1 The purpose of this report is to set out the consultation timetable options that can be considered as part of the Council's Local Plan Review.
- 1.2 On 15<sup>th</sup> November 2023 Full Council agreed the recommendation of the Policy and Resources Committee to defer a decision as to a timescale for the future stages of the Local Plan Review until such time as the national planning landscape is clearer, but independent of this process, to proceed to develop the evidence base regarding local development need and potential, with this process to be wholly reflective of local circumstance rather than central targets.
- 1.3 Since the Full Council decision, the National Planning Policy Framework (NPPF) landscape has become clearer with both a revised NPPF and accompanying written ministerial statement (WMS) published on 19<sup>th</sup> December 2023. The WMS sets out that a directive has been issued to 7 of the worst performing Plan-making Local Authorities requiring them to publish an updated Local Plan timetable within 12 weeks or that the Secretary of State (SoS) will consider further intervention. The

- WMS goes on to state that the SoS may also act with other authorities who do not publish updated timetables within the same time frame.
- 1.4 This means that Local Authorities with an out of date Local Plan (more than 5 years old) must within 12 weeks of 19<sup>th</sup> December 2023 publish and supply the SoS an up to date Local Development Scheme setting out the timetable for their Local Plan. The Council's latest Local Plan "Bearing Fruits 2017" became out of date (see sections 2.2 and 2.3) in July 2022. As a result the Council must update its timetable for Plan making or risk the possibility of intervention by the SoS.
- 1.5 The Planning and Transportation Policy working group at its meeting on the 25<sup>th</sup> January 2024 noted that the Full Council decision of the 15<sup>th</sup> November 2023 set a mandate to update the Councils timetable for the Local Plan Review now that the National Planning Policy Framework landscape had become clearer.
- 1.6 Members of PTPWG are now asked to recommend to Policy and Resources Committee the Local Plan Review timetable for consultation option 2, and the updated Local Development Scheme at Appendix A that reflects this option.

### 2 Background

### Out of date Local Plans

- 2.1 Both recent changes to the NPPF and the Written Ministerial Statement make clear the priority for Local Authorities is to have an up to date Local Plan. The WMS emphasises the purpose of planning is to plan for homes and to keep Local Plans up to date. To that effect the Secretary of State (SoS) expects that all Local Authorities with an out of date Local Plan must within 12 weeks of 19<sup>th</sup> December 2023 publish and supply to the SoS an up to date Local Development Scheme setting out the timetable for their Local Plan.
- 2.2 In terms of a Local Plan being considered as out of date the NPPF paragraph 33 sets out that Policies in local plans should be reviewed to assess whether they need updating at least once every five years, and should then be updated as necessary taking into account changing circumstances affecting the area, or any relevant changes in national policy.
- 2.3 The Council's latest Local Plan "Bearing Fruits 2017" became out of date in July 2022. However, this does not mean that automatically all the policies contained within the Local Plan are out of date. For planning decision making the Policies within the Local Plan are instead assessed on a case by case basis that includes their current conformity with the National Planning Policy Framework individually and taken as a whole.
- 2.4 Of most significance for Plan making and decision making, the Local Plan "Bearing Fruits" Policy ST2 Development targets for jobs and homes 2014-2031 and is out of date. This is due to the Council's housing need being much higher than the existing Local Plan target when calculated using the Government Standard Method

- introduced in 2019, which is the starting point for determining housing need. This results in a number of other Policies in the Local Plan including settlement strategy and economic growth needing to be reassessed against a higher housing target.
- 2.5 To incentivise Local Authorities to get an up to date Local Plan the Government in its changes to the NPPF in December 2023 has allowed for a transition period of two years to submit a Plan for examination before a wholesale change to the Plan making system. Part of the incentive has included the reduction in a 5 years housing land supply requirement to 4 years where a Local Authority has produced a Regulation 18, 19 and submitted a Plan for examination that contains Policies and site allocations to meet a housing need.
- 2.6 Whilst the Council's most recent Local Plan Review consultation was undertaken in late Autumn 2021, the consultation only sought views on matters concerning different options for distributing future development and possible alternative or additional approaches in certain policy areas. This consultation did not contain site allocations to meet an identified housing need and as a result does not allow the Council to apply the use of a 4 year housing land supply position.

### Consultation process and timetabling

- 2.7 Planning legislation requires that two levels of consultation known as Regulation 18 and 19 (Reg 18, Reg 19) are to be undertaken in the drafting of a Local Plan before it can be submitted for examination by the Planning Inspectorate.
- 2.8 A Reg 18 is set out in law and is a consultation that must as a minimum consider the main issues of development need within a local authority area and the options (strategic) considered to address those needs. There is no specified number of consultations or time period of consultation at Reg 18, so consultation at this stage can go beyond issues and options and can range from a detailed draft Plan with Policies and site allocations to a more focused consultation on specific groups of Policies or revisions to those previously consulted upon.
- 2.9 A Reg 19 is set out in law and is a consultation on a draft of a Local Plan that is considered sound enough to be submitted for examination after the consultation closes. This means that all Policies and site allocations within the Plan must be robustly evidenced and tested against Habitats Regulations and sustainability criteria. Only Reg 19 consultation responses are considered by a examining Planning Inspector.
- 2.10 A Reg 19 consultation must be for a minimum of 6 weeks and questions asked and responses received must be focused on whether the Plan complies with legal requirements and whether the Plan meets the 'tests of soundness'. Examples of tests of soundness questions are:
  - whether the Plan has been positively prepared? The Plan should be based on a strategy that looks to meet identified development need and sufficient infrastructure should be provided;

- whether the Plan is justified? The Plan should be the most appropriate strategy, when considered against the reasonable alternatives;
- whether the Plan is effective? The Plan should be deliverable during the Plan period; and,
- whether the Plan is consistent with national planning policy?
- 2.11 In preparation for either stage of consultation evidence will need to be developed to inform the process. The later the stage of consultation the completer and more robust the evidence will need to be to meet the legal requirements. Appendix B sets out all evidence that has been completed for the Local Plan Review, those not started and those in the process of drafting.

### 3. Consultation timetable options for consideration

- 3.1 Within the context of the changes made to the NPPF in December 2023, the identified options for consultation starting points are 1. Reg 18 issues and options, 2. Reg 18 draft plan and 3. Regulation 19. Option 1 has been split into a and b options to reflect different consultation routes open to this starting point. Figure 1 below sets out the indicative timetables for the consultation options:
  - Option 1. Regulation 18 issues and options This is the simplest form of consultation starting point setting out the development needs for the Borough and options to address them and would meet the minimum Regulation 18 requirements. However, this approach would be the most time and resource intensive from beginning to end as the first consultation would not contain site allocations or development management policies and would not in the first instance provide the opportunity to engage on strategic approaches to plan making with stakeholders. This approach also would not benefit from the 4 year housing land supply transitional arrangement which would only take effect at either a draft Plan Regulation 18 consultation or Regulation 19 consultation.
  - **Option 2. Regulation 18 draft Local Plan –** This starting point is more detailed, including the issues and options matters and would be dependent on a number of draft evidence documents produced to demonstrate mitigation for the levels of development proposed. This approach would provide an early opportunity to engage with stakeholders and the public on the strategic approach of the Plan including draft site allocations and DM policies. This approach can also allow for significant alterations to the Plan and re consultation before producing a Regulation 19 and would benefit from the 4 years housing land supply transitional arrangement. This approach would still require a Regulation 19 consultation.
  - Option 3. Regulation 19 pre submission Local Plan This consultation starting point sets out a version of the Local Plan considered sound enough to successfully pass examination by the Planning Inspectorate and would be the most expedient route for progressing a Local Plan. However, the Council must be confident enough that the minimum requirements for Regulation 18 have already been met. Further, the Local Plan's strategy

and evidence needs to be robust enough to not raise significant issues at consultation and pass examination. Failure at this stage to identify issues with the Local Plan can lead to abortive costs or the need to reconsult on the Local Plan before submission. This approach would benefit from the 4 year housing land supply arrangement.

3.2 The following diagram provides an indicative set of timetables based on the consultation options open to the Council. The timetable assumptions below are based on the current Planning Policy team being fully staffed,

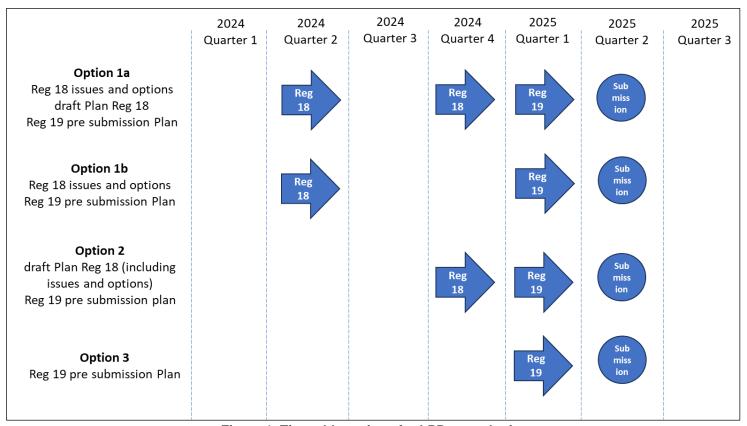

Figure 1. Timetable options for LPR consultation

### 4. Proposals

- 4.1 When balancing the priorities of the 2 years timeframe to submit a Plan for examination under the NPPF transitional arrangements, costs of Plan production and robustness of Plan drafting, officers consider option 2 to be the best approach to support member aspirations for the Local Plan Review.
- 4.2 Members of PTPWG are asked to recommend to Policy and Resource committee the Local Plan Review timetable for consultation option 2 that includes a Regulation 18 draft Plan consultation in quarter 4 of this year and a Regulation 19 pre submission Plan consultation in quarter 1 of 2025 and to recommend to Policy and

Resources Committee that the updated Local Development Scheme at Appendix A be agreed and recommended for publication on the Council's website.

### 5. Alternative Options Considered and Rejected

- 5.1 There are four consultation options presented in this report. The proposed option 2 is a pragmatic approach in that a draft Plan consultation including evidence to support it will be produced this year allowing for earlier consultation with statutory stakeholders and members of the public. This option will ensure a robust Local Plan drafting process and enable the Council to take advantage of the 4 years housing land supply transitional arrangement.
- 5.2 Option 1a has not been recommended due to it being the most consultation and resource intensive approach and it would not benefit from the 4 years housing land supply transitional arrangement until the second Regulation 18 consultation. Further, the Regulation 18 issues and options and draft Plan consultations could be combined as one making a considerable time and resource saving and would reduce the potential for timetable slippages.
- 5.3 Option 1b whilst having 1 less consultation that Option 1a has not been recommended. Whilst this approach has an early Regulation 18 consultation, the consultation would be for issues and options only and would not benefit from the 4 years housing land supply transitional arrangement. Further as no strategic approach or sites are presented in this type of consultation any responses from statutory stakeholders will be of limited value. Proceeding from that consultation to a Regulation 19 consultation will not provide a formal opportunity from both statutory stakeholders and members of the public to comment and provide input on drafting of the Plan. This approach may then result in substantive matters that could impact on the Plans soundness for examination not being identified until after the Regulation 19 consultation. This could result in abortive or additional costs from evidence needing to be revised and a further Regulation 19 consultation being a possibility.
- 5.4 The final consultation approach option 3 whilst having the least numbers of consultation and overall resource requirements would have no opportunity for any engagement with statutory stakeholders and members of the public until Regulation 19 consultation. This option would have the highest possibility of substantive matters being identified after a Regulation 19 consultation that could impact on the Plans soundness as discussed under Option 1b above.

### 6. Consultation Undertaken or Proposed

6.1 The timescales for Local Plan production and the timetable for consultation are a matter for the Council's Local Development Scheme (LDS). The LDS which is contained in Appendix A has been updated to reflect option 2 of this report and members are asked to recommend to Policy and Resources Committee that this LDS be agreed and published on the Council's website.

# 7. Implications

| Issue  | Implications   |
|--|--|
| Corporate Plan                               | The LPR is responsible for delivering the spatial elements of the Corporate Plan.  |
| Financial,<br>Resource and<br>Property       | The LPR is typically prepared in line with existing resources. Some of the above options would require the engagement of interim staff to bridge the gap to the permanent planning structure currently being implemented. The time pressures created by the transitional arrangements may lead to periodic requirements for temporary staff support to manage peaks in workload. These may exceed the revenue / reserve budget available, and if so this would need to be addressed through the budget setting process for 25-26 onwards.  |
| Legal, Statutory and Procurement             | Preparation of a Local Plan is carried out under a national legislative and regulatory framework.  |
| Crime and Disorder                           | None identified at this stage.   |
| Environment and Climate/Ecological Emergency | The Local Plan will be supported by its own Sustainability Appraisal and Habitats Regulation Assessment at each key stage in decision making.  The sustainability appraisal process appraises the social, environmental and economic effects of a plan from the outset. In doing so it helps ensure that Plan making decisions are made that contribute to achieving sustainable development.  Habitats regulations assessment, to test if a Plan and the site allocations and policies within it could significantly harm the designated features of a site or sites protected by the Conservation of Habitats and Species Regulations 2017  From the assessment's outcome, a decision can be made whether to proceed with a Plan through to adoption or not.  Drafting of the Plan and its Policies will also be considerate of the Councils Climate and Ecological Emergency Action Plan. |
| Health and<br>Wellbeing                      | None identified at this stage  |
| Safeguarding of Children, Young              | None identified at this stage.   |

| People and Vulnerable Adults                |   |
|---|---|
| Risk Management<br>and Health and<br>Safety | There is a considerable risk that SBC may not be able to recruit or retain the required full complement of permanent staff to deliver the Local Plan within the window of the transitional arrangements.        |
|   | The new permanent Planning Service structure indicates the appointment of 2.5FTE staff within Planning Policy in addition to those currently employed, representing two vacancies and a 0.5FTE additional post. |
|   | There is an identified national shortage of skilled planners, and many Local Authorities will be seeking similar skills at a similar period of time.  |
| Equality and Diversity                      | None identified at this stage.  |
| Privacy and Data<br>Protection              | None identified at this stage.  |

### 8. Appendices

- 8.1 Appendix A Local Development Scheme 2024
- 8.2 Appendix B Local Plan Review Evidence Base list

### 9. Background Papers

9.1 None

### Appendix A. Local Development Scheme April 2024 Draft

### 1. Introduction

- 1.1 Swale Borough Council is required to prepare and maintain a Local Development Scheme (LDS) in accordance with Section 15 of the Planning and Compulsory Purchase Act 2004 (as amended by the Localism Act 2011).
- 1.2 This LDS came into effect upon agreement by the Full Council at its meeting on XXXX April 2024. As set out in the Planning and Compulsory Purchase Act 2004 (Section 15) the LDS must specify:
  - The local development documents which are to be development plan documents;
  - The subject matter and geographical areas to which each development plan document is to relate;
  - Which development plan documents (if any) are to be prepared jointly with one or more other local planning authorities;
  - Any matter or area in respect of which the authority has agreed (or propose to agree) the constitution of a joint committee under section 29;
  - The timetable for the preparation and revision of the development plan documents.
- 1.3 The LDS is a project plan which sets out the timetable for the production of new or revised development plan documents which will form the Council's Local Development Plan. This LDS sets out a work programme for the Council's Local Plan Review over the period to December 2025. Progress against this LDS will be reviewed annually and reported by the Councils Local Plans team.

### 2. Background

- 2.1 The Council produced its first LDS in 2005, followed by subsequent revisions in 2008, 2010, 2015, and 2016. These related to the former Local Plan (Adopted Feb 2008); and the current adopted Local Plan 'Bearing Fruits' (Adopted July 2017).
- 2.2 Work on the Local Plan Review (LPR) began once Bearing Fruits was adopted and the first LDS was published in 2018. A revised LDS was published in March 2020, then in October 2021 and again in July 2022 to reflect changes in approach that the Council deemed appropriate at that time. This latest version has been produced as a result of much awaited changes to the National Planning Policy Framework (NPPF December 2023) that included *inter alia* a change in housing targets from mandatory to advisory, a 4 year housing land supply requirement for Local Authorities with a draft Plan Regulation 18, 19 or submission document and the removal of a 5 year housing land supply requirement for authorities with up to date Local Plans. Now that the changes in requirements on Plan making have been made clear the Council is able to update the LDS accordingly.

2.3 The Council remains committed to having an up-to-date local plan and recognises the need to progress with the LPR and to have a robust and proportionate evidence base. This new LDS (April 2024) reflects the statutory stages of the plan process and the Statutory Regulations and will supersede the LDS (July 2022) programme for Local Plan Review.

### 3. The current adopted development plan for Swale

- 3.1 The current statutory adopted elements of the development plan for Swale Borough are:
  - Bearing Fruits 2031: The Swale Borough Local Plan (adopted July 2017)
  - Faversham Creek Neighbourhood Plan (made June 2017)
  - Boughton-under-Blean and Dunkirk Neighbourhood Plan (made April 2023)
  - Kent Minerals and Waste Local Plan 2013 2030, as amended by early partial review (adopted September 2020)

### 4. Current Supplementary Planning Documents (SPD)

- 4.1 The Local Plan is supported by a number of existing and proposed Supplementary Planning Documents and Supplementary Planning Guidance and Technical Advice Notes which set out the details for implementing local plan policies. All of these documents were subject to public consultation. These can be viewed at Publications Planning and Planning Policy (swale.gov.uk)
- 4.2 Currently adopted SPDs for the Borough are:
  - Developer Contributions SPD (adopted, November 2009)
  - Queenborough and Rushenden Masterplan SPD (November 2010)
  - Sittingbourne Town Centre and Milton Creek Masterplan SPD (September 2010)
  - Swale Landscape Character and Biodiversity Appraisal SPD (2011)
  - Stones Farm Development Brief SPD (May 2011)
  - Parking Standards SPD (May 2020)
  - Sittingbourne Town Centre Supplementary Planning Document (2022)
- 4.3 Supplementary Planning Guidance (SPG) documents are:
  - The Conversion of Buildings into Flats and Houses in Multiple Occupation
  - Listed Buildings A Guide for Owners and Occupiers
  - The Conservation of Traditional Farm Buildings
  - The Design of Shop Fronts, Signs and Advertisements
  - Designing an Extension A Guide for Householders
  - Planting on New Developments A Guide for Developers
  - The Erection of Stables and Keeping of Horses
  - Conservation Areas

- Lynsted Parish Design Statement
- Abbott Laboratories Ltd. Development Brief
- 4.4 Technical Guidance Notes (TGN) documents are:
  - Air Quality
  - Noise and Vibration Planning Technical Guidance
- 4.5 The Full Council agreed an interim Planning Policy statement the "Interim Planning Policy for Park Home residences" ahead of the Policy consideration in the Local Plan Review on 17 June 2020, the.
- 4.6 Additionally, part of the Kent Downs Area of Outstanding Natural Beauty falls within Swale and has a management plan that is adopted by all local authorities within their area. This is used as a material consideration for planning applications and can be viewed at <a href="Planning and the Management Plan Kent Downs">Plan Kent Downs</a>

### 5. Other Relevant Documents

### 5.1 Statement of Community Involvement (SCI)

The Swale Statement of Community Involvement (February 2018) sets out the Council's approach to public and key stakeholder participation in all planning matters, including the preparation of the local plan, supplementary planning documents and arrangements for consultations on planning applications.

### 5.2 **Sustainability Appraisal**

The Council will meet the requirements of sustainability appraisal through the local plan preparation process, which will involve carrying out iterative appraisals of the sustainability of the options, proposals and draft policies in the local plan and prepare reports on the findings. These will be carried out at the key stages of plan preparation and will inform progress on the Plan. The sustainability appraisals carried out at the key stages of plan preparation will also accompany consultation drafts of the Plan for public comment.

### 5.3 Swale Borough Council Corporate Plan (2023 – 2027)

The corporate plan sets out the Council's priorities and the local plan is responsible for delivering those of a spatial nature. The priorities most specific to the Councils Local Plan review Include:

- PriorityCommunity: To enable our residents to live, work and enjoy their leisure time safely in our borough and to support community resilience.;
- Priority Economy: Working with our businesses and community organisations to work towards a sustainable economy which delivers for local people.

- Priority Environment: To provide a cleaner, healthier, more sustainable and enjoyable environment, and to prepare our borough for the challenges ahead.
- Priority Health and Housing: To aspire to be a borough where everyone has access to a decent home and improved health and wellbeing.

### 5.4 **Authority Monitoring Report**

The Council will publish monitoring information on its website on an annual basis relating to the previous monitoring year (running from 1 April to 31 March). This will provide updates on the status of the LDS timetable; progress on the Local Plan Review; reports on public consultations; duty to co-operate statements; neighbourhood planning and borough wide performance statistics on planning topics such as housing, employment, environment and transport.

### 5.5 Policies Map

The Council is required to produce a Policies Map which shows the location of development proposals in all current, adopted development plan documents on an ordnance survey base map. For Swale, this is the Proposals Map which accompanies the Bearing Fruits Local Plan (2017). The area annotated as Policy NP1 denotes the area covered by the adopted Faversham Creek Neighbourhood Plan.

### 6. Emerging Development Plans for Swale

### **Swale Borough Local Plan Review 2022 – 2040**

- 6.1 The Local Plan Review (LPR) will set the framework for the development needs for the whole of the Swale Borough area from 2022 2040. This will include addressing revisions to the National Planning Policy Framework and associated Practice Guidance (2023); addressing the future development needs of the Borough including housing, the local economy, environmental considerations and community infrastructure needs and transport.
- The LPR will include strategic policies to address these matters and put forward a development strategy for the Borough. It will also include site specific allocations to meet identified need and retain, update or include new detailed topic development management policies to guide determination of planning applications. Where applicable, the policies for any larger scale developments, such as significant extensions to existing villages and towns, will be set within a vision that looks further ahead (at least 30 years). This will take into account the likely timescale for their delivery.
- 6.3 Work began on the LPR as a result of Council Minute 44 (July 2017), with early scoping and evidence gathering, within the context of major review of national planning policy and government policy to significantly boost housing delivery. The key stages of the process and the Document Project Plan and

the timetable for Local Plan Review including key stages of consultation are set out at 7.4 below.

The Council continues to undertake the Duty to Cooperate with neighbouring planning authorities and on the London Plan, to identify and discuss potential cross boundary issues (which will result in Statements of Common Ground). No intention for joint plan making with other Local Authorities was agreed by the Council at its Full Council meeting on 15<sup>th</sup> November 2023 link: <u>Agenda for Council on Wednesday</u>, 15 November 2023, 7.00 pm (swale.gov.uk)

### 6.5 Community Infrastructure Levy (CIL)

CIL is a mechanism introduced under the Planning Act 2008 with the intention of providing a consistent approach to determining financial contributions from new development towards local infrastructure provision. CIL significantly reduces down the Section 106 agreement process at the planning application stages as Levies will have been determined through a CIL specific examination in public. The Section 106 agreements then are left to focus upon limited matters like Affordable Housing. At this stage in the Local Plan Review due to the Whole Plan viability assessment having not been completed it is unknown whether it will be viable to apply CIL to new development proposed within the Plan. The Council will review the appropriateness of applying CIL and, if required, CIL will be included in a future review of this LDS.

### 6.6 **Neighbourhood Plans**

At March 2024, the following areas have designated Neighbourhood Plan areas:

- Minster (designated in 2014)
- Hernhill (designated in 2017 and under preparation)
- Faversham (designated in 2020 and at Examination stage commenced January 2024)
- 6.7 Neighbourhood plans, once adopted, form part of the development plan but are not programmed by the local planning authority and are therefore, not included within this LDS timetable. They must be in general conformity with the strategic policies of the adopted local plan and have regard to any emerging local plans. More details for Swale neighbourhood plans can be found at Local Plans Neighbourhood planning (swale.gov.uk)

### 6.8 **Supplementary Planning Documents**

Presently, the Council is not intending to prepare an Supplementary Planning Documents.

### 7. Conclusion

- 7.1 The Local Plan Review (LPR) will be produced by the Council's Planning Services, and led by the Planning Policy Team. The importance of the work is recognised and supported with input and expertise from other teams across the Council including the use of outside specialist consultants (where appropriate) and engagement with stakeholders, organisations and the public to help inform and develop the plan.
- 7.2 The Council has an established management and reporting structure to support delivery of the local plan review. This is primarily the Policy and Resources Committee (and Planning and Transportation Policy Working Group that report to it), that subsequently make recommendations to Council for decision. In addition, briefings for senior managers and Members on key pieces of research or new national policy are used.
- 7.3 The LPR Document Project Plan and the timetable for the Review including key stages of consultation are set out below.

| Document Project Plan to date   |   |
|---------------------------------|---|
| Subject/Content                 | Matters to be reviewed include: A vision for the Borough up to 2052 A review of development needs for housing, employment and other uses Identification of a development strategy that will meet identified development needs Allocation of land to deliver development needs and maintain supply The need for further sustainable transport measures aimed at encouraging modal shift to reduce congestion and air pollution that will lead to improved health outcomes. How great design and good placemaking can be achieved How best to respond to the challenges of the climate and ecological emergency |
| Status                          | Local Plan  |
| Coverage                        | Borough-wide  |
| Conformity with national policy | Central government policy and guidance, including the National Planning Policy Framework, National Planning Practice Guidance and the Town and Country Planning (Local Planning) (England) Regulations 2012.  |
| Conformity with local policy    | Regard to the Council's Plans and Strategies, including the Corporate Plan, Economic Development Improvement Plan and Housing Strategy. Also have regard to the Climate Change and Ecological Emergency Strategy and Action   |

|  | Plan. The LPR will need to take into account the policies within neighbourhood plans and have regard to other local strategies such as those produced by KMEP and KCC |
|--|---|
| Policies map   | To be amended to reflect the policy content of the Local Plan Review  |
| Local plan review commenced (Council Minute 44)  | July 2017   |
| Sustainability Appraisal   | Relevant appraisals and assessment will be carried out throughout the review of the Swale Borough Local Plan  |
| Evidence gathering   | Commenced July 2017   |
| Previous consultations being superseded  |   |
| Regulation 18 consultation<br>(Looking Ahead)  Regulation 10 consultation                                  | 27 April – 8 June 2018<br>February – 30 April 2021  |
| <ul> <li>Regulation 19 consultation<br/>on the LPR</li> </ul>  | February – 30 April 2021  |
| Publication of further Issues     & Options (with Preferred     Option) consultation     document (Reg 18) | October – November 2021   |
| Project Plan going forward   |   |
| Regulation 18 draft Local Plan consultation  | October to December 2024  |
| Publication of submission draft local plan review for public Consultation (Reg 19)                         | January to March 2025   |
| Submission of Plan for<br>Examination (with results of the<br>public consultation) Reg 22                  | April to June 2025  |
| Examination hearing sessions (Reg 24)  | October to December 2025  |
| Main modifications consultation  | January to March 2026   |
| Adoption, full Council (Regulation 26)   | April to June 2026  |
