

**Council 24 September 2014 - Questions submitted by Members**

Question No.	Question from:	Question:	Question to:	Service area:
1	Cllr Worrall	<p>Can the Leader tell me what has happened to the bird nesting rafts that have disappeared from the seaward side of The Moat, Sheerness? They have vanished and speculation is that they have been moved to either Milton Creek or Faversham Creek.</p> <p>Research into this matter has established that nobody has any knowledge of their whereabouts and other artefacts in Sheerness that have disappeared. I would be grateful if someone could shed some light on where they have gone and also whether they will be repaired or replaced?</p>	Leader	Dave Thomas/ Graeme Tuff
<p><b>Response:</b> May I thank Cllr Worrall for bringing this matter to my attention. I can confirm that the rafts have been identified and found in the reeds within The Moat. They appear to have separated from their tethers, and officers are currently seeking quotes from contractors to reposition and secure the rafts in appropriate positions.</p>
