Dear Sir/Madam,

I read a notice on a lamp post about a live music event at Woodcomb Club, then didn't even put the notices in our doors, there are 10 houses that are next to the club and some that over look the grounds I was objecting to the live music, because the last one they had, the speakers were facing our houses, the noise must have been far higher than permitted, we had to keep all the windows & doors closed and on a hot day & evening it wasn't very pleasant we couldn't even hear the T.V. I did phone and complain, but nothing was done about it, small children & babies couldn't sleep, when the people leave

they stand out the front & shout about while they wait for their taxi's, the cars use their hooters but that behaviour is usual for any week end, we can never go to bed until 12.30ish, I don't know how the residents in Hugh Price put up with it either,

The club should be pulled down & houses built on the grounds, there was never any problems when Mr Gunn ran it

Yours faithfully
