Summary: This report updates Members on the identified schemes approved for construction

---

## **1. Introduction**

This report provides an update and summarises schemes that have been programmed for delivery in 2020/21.

Kent County Council has agreed a substantial increase in the budget for planned highway works over the next three years, and as a result we are still in the process of identifying and designing schemes for inclusion in our full Year One to Two (2020/21 and 2021/22) and Year Three to Five (2022/23 to 2024/25) programmes. Because of this, we have decided to publish an interim programme, and to publish the full programmes later this year. For some assets this interim programme covers approximately the first six months of 2020/21, whilst for others it includes most of the works planned for the whole year.

This programme is subject to regular review and may change for several reasons including budget allocation, contract rate changes, and to reflect KCC's changing priorities. The programme and extent of individual sites within the programme may also be revised following engineering assessment during the design phase.
