The contents of this report relate only to the matters which have come to our attention, which we believe need to be reported to you as part of our audit planning process. It is not a comprehensive record of all the relevant matters, which may be subject to change, and in particular we cannot be held responsible to you for reporting all of the risks which may affect the Council or all weaknesses in your internal controls. This report has been prepared solely for your benefit and should not be quoted in whole or in part without our prior written consent. We do not accept any responsibility for any loss occasioned to any third party acting, or refraining from acting on the basis of the content of this report, as this report was not prepared for, nor intended for, any other purpose.

Grant Thornton UK LLP is a limited liability partnership registered in England and Wales: No.OC307742. Registered office: 30 Finsbury Square, London, EC2A 1AG. A list of members is available from our registered office. Grant Thornton UK LLP is authorised and regulated by the Financial Conduct Authority. Grant Thornton UK LLP is a member firm of Grant Thornton International Ltd (GTIL). GTIL and the member firms are not a worldwide partnership. Services are delivered by the member firms. GTIL and its member firms are not agents of, and do not obligate, one another and are not liable for one another's acts or omissions.

Key matters

Factors

Council Developments

The outbreak of the COVID-19 coronavirus pandemic continued to have a significant impact on the Council's normal operations during the year. This resulted in budget pressures on different services that the Council renders most such as increased expenditure on homelessness and on other funding streams such as income from car parks. The pandemic also had a knock-on effect on progressing capital projects. The quarter 3 capital budget monitoring presented at the February 2022 Cabinet meeting, reported the projected expenditure for the full year was £13.502m, £5.022m less than the £18.524m budget.

As for many councils the financial outlook is challenging and uncertain in the medium term. In the Summer of 2021, the funding gap was estimated at £3.7m over the period to 2022/23. By March 2022, this had reduced to £2.3m.

The Council's finance team is under a capacity pressure as it copes with a high level of long term sickness. Officers have worked to mitigate the impact, but there remains a risk that the availability of knowledgeable staff to respond to audit queries may slow the completion of the financial statements audit.

The Council declared a climate and ecological Emergency in June 2019, and has committed to make Council operations carbon neutral by 2025 and across the borough by 2030. The apparent impact of climate change in more extreme (and costly) weather events and increasing concern generally, is driving an increased demand for Authorities and businesses to flesh these plans out with what investment and changes to operations may be required to make such targets a reality in the medium to long term. This is also increasingly becoming an area of concern for Audit/Risk Committees in terms of how they oversee this risk, and auditors nationally are considering the impact on financial reporting and Value for Money of these plans.

CIPFA Code consultation

In March 2022, CIPFA/LASAAC agreed to pursue the option of deferring implementation in the Code of IFRS 16 Leases, subject to consideration and review of this approach by the Financial Reporting Advisory Board (FRAB). This deferral would be for a fixed period of two years and apply to all UK jurisdictions.

Our response

- As a firm, we are absolutely committed to audit quality and financial reporting in the local government sector. Our proposed work and fee is set out further on page 19.
- We will consider your arrangements for managing and reporting your financial resources as part of our work in completing our Value for Money work.
- We will obtain updates on actions/recommendations agreed in respect of matters identified through our previous audit work, including Value for Money work during our on site audit planning and interim visit. We will report progress to this Committee in subsequent reporting.
- We have identified a significant risk in regards to management override of control (page 8) to manipulate their financial statements due to increasing financial pressures.
- We will consider the Council's planned response to the climate emergency and potential impacts on financial reporting in the current year.
- We will review and audit the Council's disclosures, including the financials disclosed, for accuracy, completeness and for how appropriate the disclosure is in line with the CIPFA Code.
- We will continue to provide you with sector updates via our Audit Committee updates.

Introduction and headlines

Purpose

This document provides an overview of the planned scope and timing of the statutory audit of Swale Borough Council ('the Council') for those charged with governance.

Respective responsibilities

The National Audit Office ('the NAO') has issued a document entitled Code of Audit Practice ('the Code'). This summarises where the responsibilities of auditors begin and end and what is expected from the audited body. Our respective responsibilities are also set out in the agreed in the Terms of Appointment and Statement of Responsibilities issued by Public Sector Audit Appointments (PSAA), the body responsible for appointing us as auditor of the Council. We draw your attention to both of these documents.

Scope of our audit

The scope of our audit is set in accordance with the Code and International Standards on Auditing (ISAs) (UK). We are responsible for forming and expressing an opinion on the:

- Council's financial statements that have been prepared by management with the oversight of those charged with governance (the Audit committee); and
- Value for Money arrangements in place at the Council for securing economy, efficiency and effectiveness in your use of resources.

The audit of the financial statements does not relieve management or the Audit Committee of your responsibilities. It is the responsibility of the Council to ensure that proper arrangements are in place for the conduct of its business, and that public money is safeguarded and properly accounted for. We have considered how the Council is fulfilling these responsibilities.

Our audit approach is based on a thorough understanding of the Council's business and is risk based.

Significant risks

Those risks requiring special audit consideration and procedures to address the likelihood of a material financial statement error have been identified as:

- The risk that the valuation of Land and buildings and investment properties in the accounts is materially misstated.
- The risk that the valuation of the net pension fund liability in the accounts is materially misstated.
- The risk of management override of controls.

We will communicate significant findings on these areas as well as any other significant matters arising from the audit to you in our Audit Findings (ISA 260) Report.

Materiality

We have determined planning materiality to be £1.56m (PY £1.56m) for the Council, which equates to 1.95% of your prior year Cost of Service expenditure. We are obliged to report uncorrected omissions or misstatements other than those which are 'clearly trivial' to those charged with governance. Clearly trivial has been set at £78k (PY £78k). We will update this on receipt of the draft statement of accounts for audit. We design our procedures to detect errors in specific accounts at a lower level of precision, therefore we have determined lower materiality for cash and cash equivalents at £500,000 and Officers' Remuneration and Termination Benefits Disclosure at £50,000 respectively.

Value for Money arrangements

At the time of writing, our risk assessment regarding your arrangements to secure value for money is ongoing. We have not identified any risks of significant weaknesses in your arrangements. We will report any changes to our risk assessment to the committee.

Audit Logistics

Our interim audit took place in March 2022 and our final audit will take place between August - September 2022. Our key deliverables are this Audit Plan, our Audit Findings Report and Auditor's Annual Report.

Our fee for the audit will be £71, 269 (PY: £ 69,769) for the Council, subject to the Council delivering a good set of financial statements and working papers. Included in this fee is £1,500 for IFRS 16 disclosure work. This is subject to approval by PSAA Ltd.

We have complied with the Financial Reporting Council's Ethical Standard (revised 2019) and we as a firm, and each covered person, confirm that we are independent and are able to express an objective opinion on the financial statements.

Significant risks identified

Significant risks are defined by ISAs (UK) as risks that, in the judgement of the auditor, require special audit consideration. In identifying risks, audit teams consider the nature of the risk, the potential magnitude of misstatement, and its likelihood. Significant risks are those risks that have a higher risk of material misstatement.

Risk	Risk relates to	Reason for risk identification	Key aspects of our proposed response to the risk
The revenue cycle includes fraudulent transactions		<p>Under ISA (UK) 240 there is a rebuttable presumed risk that revenue may be misstated due to the improper recognition of revenue.</p> <p>The presumption can be rebutted if the auditor concludes that there is no risk of material misstatement due to fraud relating to revenue recognition.</p>	<p>Having considered the risk factors set out in ISA240 and the nature of the Council revenue streams, we have determined that the risk of fraud arising from revenue recognition can be rebutted, because:</p> <ul style="list-style-type: none"> • There is little incentive to manipulate revenue recognition. • Opportunities to manipulate revenue recognition are very limited. • The culture and ethical frameworks of local authorities, including that of Swale Borough Council, mean that all forms of fraud are seen as unacceptable. <p>Therefore, we do not consider this to be a significant risk for the Swale Borough Council.</p>
Management override of controls		<p>Under ISA (UK) 240 there is a non-rebuttable presumed risk that the risk of management over-ride of controls is present in all entities. The council faces external scrutiny of its spending and this could potentially place management under undue pressure in terms of how they report performance.</p> <p>We therefore identified management override of control, in particular journals, management estimates and transactions outside the course of business as a significant risk, which was one of the most significant assessed risks of material misstatement.</p>	<p>We will:</p> <ul style="list-style-type: none"> • Evaluate the design effectiveness of management controls over journals. • Analyse the journals listing and determine the criteria for selecting high risk unusual journals. • Test unusual journals recorded during the year and after the draft accounts stage for appropriateness and corroboration. • Gain an understanding of the accounting estimates and critical judgements applied made by management and consider their reasonableness with regard to corroborative evidence. • Evaluate the rationale for any changes in accounting policies, estimates or significant unusual transactions.

Significant risks identified

Risk	Reason for risk identification	Key aspects of our proposed response to the risk
Valuation of land and buildings and investment properties	<p>You revalue your operational land and buildings on a rolling five yearly basis and your investment properties every year. The valuation of these assets represents a significant estimate by management in the financial statements due to the size of the numbers involved and the sensitivity of this estimate to changes in key assumptions. We therefore identified valuation of land and buildings as a significant risk, particularly focused on the valuers' key assumptions and inputs to the valuations.</p> <p>For assets not revalued in the year management will need to ensure the carrying value in the Authority's financial statements is not materially different from the current value or the fair value (for investment properties and surplus assets) at the financial statements date.</p>	<p>We will:</p> <ul style="list-style-type: none"> • Evaluate management's processes and assumptions for the calculation of the estimate, the instructions issued to valuation experts and the scope of their work; • Evaluate the competence, capabilities and objectivity of the valuation expert; • Write to the valuer to confirm the basis on which the valuation was carried out to ensure that the requirements of the Code are met and discuss this basis where there are any departures from the Code; • Challenge the information and assumptions used by the valuer to assess completeness and consistency with our understanding; • Assess how management have challenged the valuations produced by the professional valuer to assure themselves that these represent the materially correct current value; • Test revaluations made during the year to see if they are input correctly into the Authority's asset register; • Evaluate the assumptions made by management for any assets not revalued during the year and how management has satisfied themselves that these are not materially different to current value; and • For all assets not formally revalued, evaluate the judgement made by management or others in determination of current value of these assets.

Significant risks identified

Risk	Reason for risk identification	Key aspects of our proposed response to the risk
Valuation of the pension fund net liability	<p>The Council's pension fund net liability, as reflected in its balance sheet as the net defined benefit liability, represents a significant estimate in the financial statements.</p> <p>The pension fund net liability is considered a significant estimate due to the size of the numbers involved and the sensitivity of the estimate to changes in key assumptions.</p> <p>We therefore identified valuation of the pension fund net liability as a significant risk, which was one of the most significant assessed risks of material misstatement. We have pinpointed this significant risk to the assumptions applied by the professional actuary in their calculation of the net liability.</p> <p>We have concluded that there is not a significant risk of material misstatement due to the source data used by the actuary in their calculation (we will reconsider this if it becomes apparent at the year-end that there are significant special events relating to the source data (such as bulk transfers, redundancies or other significant movements of staff) which would need to be given special consideration during the audit. Despite not being considered a significant risk we still carry out testing and consideration of the source data to obtain sufficient and appropriate audit evidence that there is no material misstatement.</p>	<p>We will:</p> <ul style="list-style-type: none"> Update our understanding of the processes and controls put in place by management to ensure that the Council's pension fund net liability is not materially misstated and evaluate the design of the associated controls. Evaluate the instructions issued by management to their management expert (an actuary) for this estimate and the scope of the actuary's work. Assess the competence, capabilities and objectivity of the actuary who carried out the Council's pension fund valuation. Assess the reasonableness of the actuary's assumptions and calculations in-line with the relevant standards, including their consideration of the ongoing impact of the McCloud, Goodwin and Guaranteed Minimum Pension cases. Assess the accuracy and completeness of the information provided by the Council to the actuary to estimate the liability. Test the consistency of the pension fund asset and liability and disclosures in the notes to the core financial statements with the actuarial report from the actuary. Undertake procedures to confirm the reasonableness of the actuarial assumptions made by reviewing the report of the consulting actuary (as auditor's expert) and performing any additional procedures suggested within the report; and Obtain assurances from the auditor of Kent County Council Pension Fund as to the controls surrounding the validity and accuracy of membership data; contributions data and benefits data sent to the actuary by the pension fund and the fund assets valuation in the pension fund financial statements.

Other risk identified

Risk	Risk relates to	Reason for risk identification	Key aspects of our proposed response to the risk
Error in expenditure recognition	Council	<p>In line with the Public Audit Forum Practice Note 10, in the public sector, auditors must also consider the risk that material misstatements due to fraudulent financial reporting may arise from the manipulation of expenditure recognition (for instance by deferring expenditure to a later period). As most public bodies are net spending bodies, then the risk of material misstatement due to fraud related to expenditure recognition may be greater than the risk of fraud related to revenue recognition. There is a risk the Council may manipulate expenditure to budgets and set targets and we had regard to this when planning and performing our audit procedures.</p> <p>Management could defer recognition of expenditure by under-accruing for expenses that have been incurred during the period, but which were not paid until after the year-end or not record expenses accurately in order to improve the financial results.</p> <p>Having considered the risk factors related to this risk and the nature of the expenditure streams at the Authority, we have determined that the risk of fraud arising from expenditure recognition can be rebutted for the Council's expenditure, because:</p> <ul style="list-style-type: none"> • there is little incentive to manipulate expenditure recognition • opportunities to manipulate expenditure recognition are limited • the culture and ethical frameworks of local authorities, including Swale Borough Council, mean that all forms of fraud are seen as unacceptable. <p>However, we have identified that due to the level of estimation involved in the manual accruals of expenditure and the potential volume of accruals at year end there is an increased risk of error in expenditure recognition.</p>	<p>Work planned:</p> <ul style="list-style-type: none"> • inspect transactions incurred around the end of the financial year to assess whether they had been included in the correct accounting period. • inspect a sample of accruals made at year end for expenditure but not yet invoiced to assess whether the valuation of the accrual was consistent with the value billed after the year. We will also compare listings of accruals to the previous year to ensure completeness of accrued items. • investigate manual journals posted as part of the year end accounts preparation that reduces expenditure to assess whether there is appropriate supporting evidence for the reduction in expenditure.

Accounting estimates and related disclosures

The Financial Reporting Council issued an updated ISA (UK) 540 (revised): *Auditing Accounting Estimates and Related Disclosures* which includes significant enhancements in respect of the audit risk assessment process for accounting estimates.

Introduction

Under ISA (UK) 540 (Revised December 2018) auditors are required to understand and assess an entity's internal controls over accounting estimates, including:

- The nature and extent of oversight and governance over management's financial reporting process relevant to accounting estimates;
- How management identifies the need for and applies specialised skills or knowledge related to accounting estimates;
- How the entity's risk management process identifies and addresses risks relating to accounting estimates;
- The entity's information system as it relates to accounting estimates;
- The entity's control activities in relation to accounting estimates; and
- How management reviews the outcomes of previous accounting estimates.

As part of this process auditors also need to obtain an understanding of the role of those charged with governance, which is particularly important where the estimates have high estimation uncertainty, or require significant judgement.

Specifically do Audit Committee members:

- Understand the characteristics of the methods and models used to make the accounting estimates and the risks related to them;
- Oversee management's process for making accounting estimates, including the use of models, and the monitoring activities undertaken by management; and
- Evaluate how management made the accounting estimates?

Accounting estimates and related disclosures

Additional information that will be required

To ensure our compliance with this revised auditing standard, we will be requesting further information from management and those charged with governance during our audit for the year ended 31 March 2022.

Based on our knowledge of the Council we have identified the following material accounting estimates for which this is likely to apply:

- Valuations of land and building and investment properties
- Depreciation
- Credit loss and impairment allowances
- Year end accruals
- Valuation of defined benefit net pension fund liabilities
- Fair value estimates

The Council's Information systems

In respect of the Council's information systems we are required to consider how management identifies the methods, assumptions and source data used for each material accounting estimate and the need for any changes to these. This includes how management selects, or designs, the methods, assumptions and data to be used and applies the methods used in the valuations.

When the models used include increased complexity or subjectivity, as is the case for many valuation models, auditors need to understand and assess the controls in place over the models and the data included therein. Where adequate controls are not in place we may need to report this as a significant control deficiency and this could affect the amount of detailed substantive testing required during the audit.

If management has changed the method for making an accounting estimate we will need to fully understand management's rationale for this change. Any unexpected changes are likely to raise the audit risk profile of this accounting estimate and may result in the need for additional audit procedures.

We are aware that the Council uses management experts in deriving some of its more complex estimates, e.g. asset valuations and pensions liabilities. However, it is important to note that the use of management experts does not diminish the responsibilities of management and those charged with governance to ensure that:

- All accounting estimates and related disclosures included in the financial statements have been prepared in accordance with the requirements of the financial reporting framework, and are materially accurate;
- There are adequate controls in place at the Council over the models, assumptions and source data used in the preparation of accounting estimates.

Estimation uncertainty

Under ISA (UK) 540 we are required to consider the following:

- How management understands the degree of estimation uncertainty related to each accounting estimate; and
- How management address this estimation uncertainty when selecting their point estimate.

For example, how management identified and considered alternative, methods, assumptions or source data that would be equally valid under the financial reporting framework, and why these alternatives were rejected in favour of the point estimate used.

The revised standard includes increased emphasis on the importance of the financial statement disclosures. Under ISA (UK) 540 (Revised December 2018), auditors are required to assess whether both the accounting estimates themselves and the related disclosures are reasonable.

Where there is a material uncertainty, that is where there is a significant risk of a material change to the estimated carrying value of an asset or liability within the next year, there needs to be additional disclosures. Note that not all material estimates will have a material uncertainty and it is also possible that an estimate that is not material could have a risk of material uncertainty.

Where there is material estimation uncertainty, we would expect the financial statement disclosures to detail:

- What the assumptions and uncertainties are;
- How sensitive the assets and liabilities are to those assumptions, and why;
- The expected resolution of the uncertainty and the range of reasonably possible outcomes for the next financial year; and
- An explanation of any changes made to past assumptions if the uncertainty is unresolved.

Planning enquiries

As part of our planning risk assessment procedures we have raised enquiries with the management as a separate exercise. We would appreciate a prompt response to these enquires in due course.

Further information

Further details on the requirements of ISA (UK) 540 (Revised December 2018) can be found in the auditing standard on the Financial Reporting Council's website:

[https://www.frc.org.uk/getattachment/0fa69c03-49ec-49ae-a8c9-cc7a2b65382a/ISA-\(UK\)-540_Revised-December-2018_final.pdf](https://www.frc.org.uk/getattachment/0fa69c03-49ec-49ae-a8c9-cc7a2b65382a/ISA-(UK)-540_Revised-December-2018_final.pdf)

Other matters

Other work

In addition to our responsibilities under the Code of Practice, we have a number of other audit responsibilities, as follows:

- We read your Narrative Report and Annual Governance Statement to check that they are consistent with the financial statements on which we give an opinion and our knowledge of the Council.
- We carry out work to satisfy ourselves that disclosures made in your Annual Governance Statement are in line with requirements set by CIPFA.
- We carry out work on your consolidation schedules for the Whole of Government Accounts process in accordance with NAO group audit instructions.
- We consider our other duties under legislation and the Code, as and when required, including:
 - giving electors the opportunity to raise questions about your 2021/22 financial statements, consider and decide upon any objections received in relation to the 2021/22 financial statements;
 - issuing a report in the public interest or written recommendations to the Council under section 24 of the Local Audit and Accountability Act 2014 (the Act).
 - application to the court for a declaration that an item of account is contrary to law under section 28 or a judicial review under section 31 of the Act
 - issuing an advisory notice under section 29 of the Act
- We certify completion of our audit.

Other material balances and transactions

Under International Standards on Auditing, "irrespective of the assessed risks of material misstatement, the auditor shall design and perform substantive procedures for each material class of transactions, account balance and disclosure". All other material balances and transaction streams will therefore be audited. However, the procedures will not be as extensive as the procedures adopted for the risks identified in this report.

Materiality

The concept of materiality

Materiality is fundamental to the preparation of the financial statements and the audit process and applies not only to the monetary misstatements but also to disclosure requirements and adherence to acceptable accounting practice and applicable law. Misstatements, including omissions, are considered to be material if they, individually or in the aggregate, could reasonably be expected to influence the economic decisions of users taken on the basis of the financial statements.

Materiality for planning purposes

We have determined financial statement materiality based on a proportion of the gross expenditure of the Council for the financial year. In the prior year we used the same benchmark. Materiality at the planning stage of our audit is £1.56m (PY £1.56m) for the Council, which equates to 1.95% of the council's prior year expenditure. We design our procedures to detect errors in specific accounts at a lower level of precision, therefore we have determined lower materiality for cash and cash equivalents at £500,000 and Officers' Remuneration and Termination Benefits Disclosure at £50,000 respectively.

We reconsider planning materiality if, during the course of our audit engagement, we become aware of facts and circumstances that would have caused us to make a different determination of planning materiality.

Matters we will report to the Audit Committee

Whilst our audit procedures are designed to identify misstatements which are material to our opinion on the financial statements as a whole, we nevertheless report to the Audit Committee any unadjusted misstatements of lesser amounts to the extent that these are identified by our audit work. Under ISA 260 (UK) 'Communication with those charged with governance', we are obliged to report uncorrected omissions or misstatements other than those which are 'clearly trivial' to those charged with governance. ISA 260 (UK) defines 'clearly trivial' as matters that are clearly inconsequential, whether taken individually or in aggregate and whether judged by any quantitative or qualitative criteria. In the context of the Council, we propose that an individual difference could normally be considered to be clearly trivial if it is less than £78k.

If management have corrected material misstatements identified during the course of the audit, we will consider whether those corrections should be communicated to the Audit Committee to assist it in fulfilling its governance responsibilities.

Prior year cost of service expenditure

£80.1M

- Materiality

Materiality

£1.56m

Council financial statements materiality (PY: £1.56m)

£78k

Misstatements reported to the Audit Committee (PY: £78k)

IT audit strategy

In accordance with ISA (UK) 315, we are required to obtain an understanding of the information systems relevant to financial reporting to identify and assess the risks of material misstatement. As part of this we obtain an understanding of the controls operating over relevant Information Technology (IT) systems i.e., IT general controls (ITGCs). Our audit will include completing an assessment of the design of ITGCs related to security management; technology acquisition, development and maintenance; and technology infrastructure. Based on the level of assurance required for each IT system the assessment may focus on evaluating key risk areas ('streamlined assessment') or be more in depth ('detailed assessment').

The following IT systems have been judged to be in scope for our audit and based on the planned financial statement audit approach we will perform the indicated level of assessment:

IT system	Audit area	Planned level IT audit assessment
Agresso	General Ledger	<ul style="list-style-type: none"> Streamlined ITGC design assessment
iTrent	Payroll	<ul style="list-style-type: none"> Streamlined ITGC design assessment
Academy	Housing Benefit	<ul style="list-style-type: none"> Streamlined ITGC design assessment

We have not identified significant changes during the period affecting the IT controls of the Council and therefore no additional audit procedures will be completed.

Value for Money arrangements

Approach to Value for Money work for 2021/22

The National Audit Office (NAO) issued updated guidance for auditors in April 2020. The Code requires auditors to consider whether the body has put in place proper arrangements to secure economy, efficiency and effectiveness in its use of resources. When reporting on these arrangements, the Code requires auditors to structure their commentary on arrangements under three specified reporting criteria. These are as set out below:

Improving economy, efficiency and effectiveness

Arrangements for improving the way the body delivers its services. This includes arrangements for understanding costs and delivering efficiencies and improving outcomes for service users.

Financial Sustainability

Arrangements for ensuring the body can continue to deliver services. This includes planning resources to ensure adequate finances and maintain sustainable levels of spending over the medium term (3-5 years)

Governance

Arrangements for ensuring that the body makes appropriate decisions in the right way. This includes arrangements for budget setting and management, risk management, and ensuring the body makes decisions based on appropriate information

We have not identified any risks of significant weaknesses from our initial planning work. We will continue our review of your arrangements, including reviewing your Annual Governance Statement, before we issue our auditor's annual report.

Darren Wells, Key Audit Partner

Darren is responsible for overall quality control; accounts opinions; final authorisation of reports; liaison with the Audit and Governance Committee and senior officers. He will share his wealth of knowledge and experience across the sector providing challenge and sharing good practice. Darren will ensure our audit is tailored specifically to you, and he is responsible for the overall quality of our audit work. Darren will sign your audit opinion.

Richmond N Nyarko, Audit Manager

Richmond is responsible for overall audit management, quality assurance of audit work and output, and liaison with the Audit and Governance Committee, Director of Finance, Policy and Development and finance team. He will undertake reviews of the team's work and draft reports, ensuring they remain clear, concise and understandable. Richmond will be responsible for the delivery of our work on your arrangements in place to secure value for money.

Ghufran Ahmed, Audit Assistant Manager

Ghufran will lead the onsite team and will be the day-to-day contact for the audit. He will monitor the deliverables, manage the query log with your finance team and highlight any significant issues and adjustments to senior management.

Audited body responsibilities

Where audited bodies do not deliver to the timetable agreed, we need to ensure that this does not impact on audit quality or absorb a disproportionate amount of time, thereby disadvantaging other audits. Where the elapsed time to complete an audit exceeds that agreed due to a client not meeting its obligations, we will not be able to maintain a team on site. Similarly, where additional resources are needed to complete the audit due to a client not meeting their obligations, we are not able to guarantee the delivery of the audit to the agreed timescales. In addition, delayed audits will incur additional audit fees.

Our requirements

To minimise the risk of a delayed audit, you need to ensure that you:

- produce draft financial statements of good quality by the agreed timetable you have agreed with us, including all notes, the Narrative Report and the Annual Governance Statement
- ensure that good quality working papers are available at the start of the audit, in accordance with the working paper requirements schedule that we have shared with you
- ensure that the agreed data reports are available to us at the start of the audit and are reconciled to the values in the accounts, in order to facilitate our selection of samples for testing
- ensure that all appropriate staff are available on site throughout (or as otherwise agreed) the planned period of the audit
- respond promptly and adequately to audit queries.

Audit fees

In 2018, PSAA awarded a contract of audit for Swale Borough Council to begin with effect from 2018/19. Since that time, there have been a number of developments, particularly in relation to the revised Code and ISA's which are relevant for the 2021/22 audit.

Across all sectors and firms, the FRC has set out its expectation of improved financial reporting from organisations and the need for auditors to demonstrate increased scepticism and challenge and to undertake additional and more robust testing, as detailed on page 10 in relation to the updated ISA (UK) 540 (revised): Auditing Accounting Estimates and Related Disclosures.

As a firm, we are absolutely committed to meeting the expectations of the FRC with regard to audit quality and public sector financial reporting.

Our proposed work and fee for 2021/22, as set out below. Included in this fee is £1,500 for IFRS 16 disclosure work.

The fee is based on an assumption that we will be able to work on site and have on site access to finance staff, where appropriate, to ensure the most efficient approach. If the Council would prefer the audit to be conducted remotely an additional fee of up to £5,000 may be chargeable.

	Actual fee 2020/21	Proposed fee 2021/22
Council Audit	£69,769	71,269

The fee is subject to approval by PSAA Ltd.

Assumptions

In setting the above fees, we have assumed that the Council will:

- prepare a good quality set of accounts, supported by comprehensive and well-presented working papers which are ready at the start of the audit
- provide appropriate analysis, support and evidence to support all critical judgements and significant judgements made during the course of preparing the financial statements
- provide early notice of proposed complex or unusual transactions which could have a material impact on the financial statements.

Relevant professional standards

In preparing our fee estimate, we have had regard to all relevant professional standards, including paragraphs 4.1 and 4.2 of the FRC's [Ethical Standard \(revised 2019\)](#) which stipulate that the Engagement Lead (Key Audit Partner) must set a fee sufficient to enable the resourcing of the audit with partners and staff with appropriate time and skill to deliver an audit to the required professional and Ethical standards.

Independence and non-audit services

Auditor independence

Ethical Standards and ISA (UK) 260 require us to give you timely disclosure of all significant facts and matters that may bear upon the integrity, objectivity and independence of the firm or covered persons, relating to our independence. We encourage you to contact us to discuss these or any other independence issues with us. We will also discuss with you if we make additional significant judgements surrounding independence matters.

We confirm that there are no significant facts or matters that impact on our independence as auditors that we are required or wish to draw to your attention. We have complied with the Financial Reporting Council's Ethical Standard (Revised 2019) and we as a firm, and each covered person, confirm that we are independent and are able to express an objective opinion on the financial statements. Further, we have complied with the requirements of the National Audit Office's Auditor Guidance Note 01 issued in May 2020 which sets out supplementary guidance on ethical requirements for auditors of local public bodies.

We confirm that we have implemented policies and procedures to meet the requirements of the Ethical Standard. For the purposes of our audit, we have made enquiries of all Grant Thornton UK LLP teams providing services to the Council.

Other services

The other services provided by Grant Thornton are set out in the table opposite.

The amounts detailed are fees agreed to-date for audit related and non-audit services to be undertaken by Grant Thornton UK LLP in the current financial year. These services are consistent with the Council's policy on the allotment of non-audit work to your auditors. Any changes and full details of all fees charged for audit related and non-audit related services by Grant Thornton UK LLP and by Grant Thornton International Limited network member Firms will be included in our Audit Findings report at the conclusion of the audit.

None of the services provided are subject to contingent fees.

Service	Fees £	Threats	Safeguards
Audit related			
Certification of Housing Capital receipts grant	18,400	Self-Interest (because this is a recurring fee)	The level of this recurring fee taken on its own is not considered a significant threat to independence as the expected fee for this work is £18,400 which is immaterial in comparison to the total fee for the audit and in particular relative to Grant Thornton UK LLP's turnover overall. Furthermore, there is no contingent element to it. These factors all mitigate the perceived self-interest threat to an acceptable level.

Our digital audit experience

A key component of our overall audit experience is our comprehensive data analytics tool, which is supported by Inflo Software technology. This tool has a number of key functions within our audit process:

Function	Benefits for you
Data extraction	Providing us with your financial information is made easier
File sharing	An easy-to-use, ISO 27001 certified, purpose-built file sharing tool
Project management	Effective management and oversight of requests and responsibilities
Data analytics	Enhanced assurance from access to complete data populations

Grant Thornton's Analytics solution is supported by Inflo Software technology

Our digital audit experience

A key component of our overall audit experience is our comprehensive data analytics tool, which is supported by Inflo Software technology. This tool has a number of key functions within our audit process:

Data extraction

- Real-time access to data
- Easy step-by-step guides to support you upload your data

File sharing

- Task-based ISO 27001 certified file sharing space, ensuring requests for each task are easy to follow
- Ability to communicate in the tool, ensuring all team members have visibility on discussions about your audit, reducing duplication of work

Project management

- Facilitates oversight of requests
- Access to a live request list at all times

Data analytics

- Relationship mapping, allowing understanding of whole cycles to be obtained quickly
- Visualisation of transactions, allowing easy identification of trends and anomalies

How will analytics add value to your audit?

Analytics will add value to your audit in a number of ways. We see the key benefits of extensive use of data analytics within the audit process to be the following:

Improved fraud procedures using powerful anomaly detection

Being able to analyse every accounting transaction across your business enhances our fraud procedures. We can immediately identify high risk transactions, focusing our work on these to provide greater assurance to you, and other stakeholders.

Examples of anomaly detection include analysis of user activity, which may highlight inappropriate access permissions, and reviewing seldom used accounts, which could identify efficiencies through reducing unnecessary codes and therefore unnecessary internal maintenance.

Another product of this is identification of issues that are not specific to individual postings, such as training requirements being identified for members of staff with high error rates, or who are relying on use of suspense accounts.

More time for you to perform the day job

Providing all this additional value does not require additional input from you or your team. In fact, less of your time is required to prepare information for the audit and to provide supporting information to us.

Complete extracts from your general ledger will be obtained from the data provided to us and requests will therefore be reduced.

We provide transparent project management, allowing us to seamlessly collaborate with each other to complete the audit on time and around other commitments.

We will both have access to a dashboard which provides a real-time overview of audit progress, down to individual information items we need from each other. Tasks can easily be allocated across your team to ensure roles and responsibilities are well defined.

Using filters, you and your team will quickly be able to identify actions required, meaning any delays can be flagged earlier in the process. Accessible through any browser, the audit status is always available on any device providing you with the information to work flexibly around your other commitments.

Significant improvements from the Financial Reporting Council's (FRC) quality inspection

On 29 October, the FRC published its annual report setting out the findings of its review of the work of local auditors. The report summarises the results of the FRC's inspections of twenty audit files for the last financial year. A link to the report is here: [FRC AQR Major Local Audits October 2021](#)

Grant Thornton are one of seven firms which currently delivers local audit work. Of our 330 local government and NHS audits, 87 are currently defined as 'major audits' which fall within the scope of the AQR. This year, the FRC looked at nine of our audits.

Our file review results

The FRC reviewed nine of our audits this year. It graded six files (67%) as 'Good' and requiring no more than limited improvements. No files were graded as requiring significant improvement, representing an impressive year-on-year improvement. The FRC described the improvement in our audit quality as an 'encouraging response by the firm to the quality findings reported in the prior year.' Our Value for Money work continues to be delivered to a high standard, with all of the files reviewed requiring no more than limited improvement. We welcome the FRC findings and conclusions which demonstrate the impressive improvement we have made in audit quality over the past year.

The FRC also identified a number of good practices including effective challenge of management's valuer, use of an auditor's expert to assist with the audit of a highly specialised property valuation, and the extent and timing of involvement by the audit partner on the VFM conclusion.

Our results over the past three years are shown in the table below:

Grade	Number 2018/19	Number 2019/20	Number 2020/21
Good with limited improvements (Grade 1 or 2)	1	1	6
Improvements required (Grade 3)	2	5	3
Significant improvements required (Grade 4)	1	0	0
Total	4	6	9

Our continued commitment to Audit quality and continuous improvement

Our work over the past year has been undertaken during the backdrop of COVID, when the public sector has faced the huge challenge of providing essential services and helping safeguard the public during the pandemic. Our NHS bodies in particular have been at the forefront of the public health crisis. As auditors we have had to show compassion to NHS staff deeply affected by the crisis, whilst staying focused on the principles of good governance and financial management, things which are more important than ever. We are very proud of the way we have worked effectively with audited bodies, demonstrating empathy in our work whilst still upholding the highest audit quality.

Over the coming year we will make further investments in audit quality including strengthening our quality and technical support functions, and increasing the level of training, support and guidance for our audit teams. We will address the specific improvement recommendations raised by the FRC, including:

- Enhanced training for local auditors on key assumptions within property valuations, and how to demonstrate an increased level of challenge
- Formalising our arrangements for the consideration of complex technical issues by Partner Panels.

As part of our enhanced Value for Money programme, we will focus on identifying the scope for better use of public money, as well as highlighting weaknesses in governance or financial stewardship where we see them.

Conclusion

Local audit plays a critical role in the way public sector audits an society interact, and it depends on the trust and confidence of all those who rely on it. As a firm we're proud to be doing our part to promote good governance, effective stewardship and appropriate use of public funds
