

Status of Consultee	Comments	Section of Policy	Officer Comments and Recommendations
Parish Council	<p>At their meeting on 16th March, Borden Parish Council have reviewed the attached Draft Pavement Licence Policy and have asked that I contact you with the following request;=</p> <ul style="list-style-type: none"> To include consultations with Parish Councils. 	3.3	<p>Comments noted.</p> <p>It is for Members of the Licensing Committee to decide whether parish councils should be included within the consultation process for Pavement Licence applications, although it should be noted that the time frame for consulting on applications is 7 days only and the application process is supposed to be 'light touch' so whether this makes the application process more complicated than necessary is open to deliberation.</p>
Kent police licensing officers	Having reviewed this, we think it would be beneficial if the police licensing team could be part of the consultation process as well as EH and ward councillors	3.3	As anti-social behaviour is a matter which can be considered as a reason for refusal or revocation of a pavement licence it is entirely appropriate for the police licensing team to be routinely consulted on licence applications.
