Dear Sir

I am writing to you in response to the proposed yellow lines in the linkway and springvale in Swale, whilst I fully understand the difficulties surrounding parking in residential areas, I don't feel the introduction of double yellow lines in springvale is needed. The linkway is different and would be a sensible thing to implement as vehicles parked at either ends do represent a problem. Parking restrictions in springvale would only move the problems elsewhere. Are springvale & the linkway being targetted as an easy option
